PARASITOLOGY TODAY

REFERENCE EDITION

Volume 2

1986

# CONTENTS

## JANUARY

**News**
*Trichinella* Speciation, *by H. A. Flockhart* 1
Parasitology Today and Peer Review 3

**Review**
Hyperreactive Malarious Splenomegaly, *by G. G. Crane* 4
The Reproductive Biology of Schistosomes, *by I. Popiel* 10
Selective Expression of Surface Antigen Genes in African Trypanosomes, *by M. Steinert and E. Pays* 15

**Focus**
Insecticide Resistance in the Onchocerciasis Control Programme, *by D. C. Kurtak* 20
Environmental Monitoring of Rivers in the Onchocerciasis Control Programme, *by C. Fairhurst* 21

**Letters**
Eosinophilia in *Isospora* Infections, *by W. Apt* 22
Autoimmunity in Chagas Disease: the Debate Goes On, *by A. Szarfman* 22
Reply, *by F. Kierszenbaum* 22
Marginal notes on Hormones, *by J. G. Mercer and H. H. Rees* 23
*Amblyomma variegatum* and Acute Bovine Dermatophilosus, *by R. A. I. Norval* 23

**Hi Tech**
New Approaches to Schistosome Identification, *by D. Rollinson, T. K. Walker and A. J. G. Simpson* 24

**Alternative Answers**
Insecticidal Ear Tags Control Cattle Ectoparasites, *by R. N. Titchener* 26

**Book Reviews**
Malaria and Babesiosis. Research findings and control measures, *by D. H. Molyneux* 27
A Bibliography on Chagas' Disease (1968–1984), *by C. J. Schofield* 27
Essential Malariology (2nd edition), *by G. B. White* 28

## FEBRUARY

Sir Henry Wellcome and his Legacy – *Editorial* 30

Future Policy of the Wellcome Trust, *by B. M. Ogilvie* 31

Wellcome Filariasis Seminar
Introduction, *by L. G. Goodwin* 33
Advances in the Biochemistry of Filariae, *by J. C. W. Comley and A. H. W. Mendis* 34
Advances in Filarial Chemotherapy and Screening, *by C. D. Ginger* 38

Wellcome Malaria Workshop
Chemotherapy of Malaria, *by R. E. Howells* 41
Genes, Vaccines and Variation in Malaria, *by D. Walliker* 43

Molecular Biology of *Leishmania*, *by J. M. Blackwell, D. McMahon-Pratt and J. J. Shaw* 45

## MARCH

**News**
Shellfish Parasites, *by F. O. Perkins* 55
Pteridine Synthesis in Malaria Parasites, *by D. C. Warhurst* 57
Onchocerciasis Control Programme enters a third phase 81

**Debate**
Detection of Schistosome Transmission Sites, *by R. F. Sturrock* 59
*with A. Théron* 61

**Review**
*In vitro* Screens in the Experimental Chemotherapy of Leishmaniasis and Trypanosomiasis, *by S. L. Croft* 64
Rats, Mice and Men – Models for Immune Effector Mechanisms against Schistosomiasis, *by M. Capron and A. Capron* 69

**Letters**
Ivermectin: Fleas, Fungi and Pharmacology, *by W. C. Campbell* 75
Is Chagasic Cardiopathy Associated with HLA Haplotype?, *by F. Rothhammer, E. Llop, M. Acuña and W. Apt* 76
FANSIDAR – One Man's Warning, *by J. E. Hudson* 76

**Focus**
Old World blowflies in the New World, *by B. R. Laurence* 77
Chemotherapy of Resistant Falciparum Malaria, *by P. Ambroise-Thomas and J. F. Rossignol* 79
Development of Vaccines against Equine Helminths, *by T. R. Klei* 80
Quantitative Egg Counts in Schistosomiasis Surveys, *by R. A. Braun-Munzinger* 82
The Molecular Biology of Schistosomes, *by C. E. Carter and D. G. Colley* 84

**Hi Tech**
Cell Sorting by Continuous Flow Cytometry, *by V. Britten and J. Murphy* 85
Review of Expert Systems, *by M. H. Birley and H. M. Thomas* 87

**Alternative Answers**
Community Participation in Tsetse Control, *by J. O. Okoth* 88

**Book Reviews**
Ascaris and its Public Health Significance, *by Anne Keymer* 89
Leishmaniasis, *by G. H. Coombs* 89
Toxicology of Insecticides (2nd edition), *by A. Clements* 90
Insecticide Microbiology, *by D. L. Castle* 90

## APRIL

**News**
Schistosomiasis in Jordon: An Unwelcomed Guest, *by E. K. Saliba, S. K. Abdel-Hafez and M. R. Tawfiq* 91
Gourmet Malaria Control? 116
New Director for WHO/TDR 126

**Debate**
The Heterogeneity of *Trypanosoma cruzi*, *by M. A. Miles and R. E. Cibulskis* 94
*by C. M. Morel, M. P. Deane and A. M. Gonçalves* 97

**Review**
Liposomes as Drug Carriers in Leishmaniasis and Malaria, *by C. R. Alving* 101
Replicating Helminth Parasites of Man, *by D. I. Grove* 107
Progress in Warble Fly Eradication, *by D. W. Tarry* 111

**Special April Feature**
Mozart's Death Attributed to Parasitism, *by C. A. M. Bell* 117

**Focus**
The Hazard of Malarial Nephropathy, *by J. W. Kibukamusoke* 119

**Letters**
Autoimmunity Should not Limit the Search for a Chagas Disease Vaccine, *by W. Mosca* 122
Reply, *by L. Hudson* 122
Dipping to Control Vectors of Cattle Parasites, *by H. G. B. Chizyuka and S. M. K. Luguru* 123

**Hi Tech**
Enhanced Chemiluminescent Enzyme Immunoassays, *by L. J. Kricka and G. H. G. Thorpe* 123

**Alternative Answers**
Tsetse Control by Autosterilization, *by P. A. Langley and M. J. R. Hall* 125

## MAY

**News**
Immunogenicity Assays for Clinical Trials of Malaria Vaccines, *by P. Perlmann* 127
Is New World Onchocerciasis Spreading? – *Editorial* 131
Chloroquine can Treat Onchocerciasis and Malaria 145

**Debate**
Towards a Schistosomiasis Vaccine, *by M. G. Taylor and Q. D. Bickle with S. L. James and A. Sher* 132 134

**Review**
Advances in *Pneumocystis* Biology, *by Y. Matsumoto and Y. Yoshida* 137

**Focus**
Surface Antigens of African Trypanosomes in the Tsetse Fly, *by J. D. Barry* 143
Double Development Cycle of *Trypanosoma cruzi* in the Opossum, *by M. P. Deane, H. L. Lenzi and A. M. Jansen* 146

**Letters**
Is *Trypanosoma brucei* an intracellular parasite?, *by B. H. Raseroka and W. E. Ormerod* 147

**Hi Tech**
Macrophage-Parasite Interactions *in vitro*: Potential use of Extracellular Matrix, *by P. R. Crocker* 148

**Alternative Answers**
Indigestible Phytoplankton for Mosquito Control, *by G. G. Marten* 150

**Book Reviews**
Veterinary Protozoology, *by E. J. L. Soulsby* 152
The Biology of *Echinococcus* and Hydatid Disease, *by G. S. Nelson* 152
Microbial Toxins and Diarrhoeal Disease, *by W. A. M. Cutting* 153

## JUNE

**News**
Immunoassays of Malaria Sporozoites in Mosquitoes, *by T. R. Burkot and R. A. Wirtz* 155
Parasitology in Australia 157

**Review**
The Case for Mathematical Modelling of Schistosomiasis, *by N. T. J. Bailey* 158
Hydatidosis: Changing Concepts in Epidemiology and Speciation, *by D. P. McManus and J. D. Smyth* 163
Immunological Approaches to the Control of Animal Trypanosomiasis, *by V. M. Nantulya* 168

**Focus**
The Role of Interferons in Parasitic Protozoan Infection, *by J. M. Kelly* 173
Sandfly Diet and *Leishmania*, *by Y. Schlein* 175
Microtubular Cytoskeletons of Parasitic Protozoa, *by D. G. Russell and J.-F. Dubremetz* 177

**Hi Tech**
Cuticular Hydrocarbons Distinguish Sibling Species of Vectors, *by A. Phillips and P. Milligan* 180

## JULY

**News**
Sex and the Single Trypanosome, *by D. S. Ellis* 184
Medical and Veterinary Entomology 185

**Review**
Mast Cell Responses to Helminth Infection, *by T. D. G. Lee, M. Swieter and A. D. Befus* 186

**Focus**
Chronobiology of Schistosome Development in the Snail Host, *by A. Théron* 192
Immunology of Scabies, *by D. J. J. Van Neste* 194
Why Vaccines do not work in Chagas Disease, *by Z. Brener* 196

**Hi Tech**
Immunological Detection of Parasite Antigen in Faeces, *by E. L. Green* 198

**Alternative Answers**
Urban Drainage in Developing Countries, *by S. Cairncross* 200

**Book Reviews**
Chemotherapy of Parasitic Diseases, *by L. G. Goodwin* 202

**Parasitology in Australia** – A Special Supplement collated by *G. F. Mitchell* pages: S1–S24

## AUGUST

**News**
Amodiaquine and Malaria Prophylaxis, *by T. E. A. Peto and C. F. Gilks* 209

**Review**
Vectorial Capacity: Must we Measure all its Components? *by C. Dye* 203
Biology of *Babesia*, *by A. S. Young and S. P. Morzaria* 211

**Focus**
Fluorochrome-labelled Lectins reveal secreted Glycoconjugates of Schistosome Larvae, *by E. Linder* 219
Molecular Pharmacology of Protozoan Parasites, *by S. R. Meshnick* 221
Difluoromethylornithine in the Treatment of African Trypanosomiasis, *by P. J. Schechter and A. Sjoerdsma* 223

**Hi Tech**
A Filler Immunoplaque Assay for Quantification of Parasite-Specific Antibody Producing Cells, *by D. L. Wassqm, B. E. Johnson and P. C. Sayles* 225

**Alternative Answers**
Mosquito Control with Larvivorous Fish, *by M. B. Wickramasinghe and H. H. Costa* 228

**Book Reviews**
Coevolution of Parasitic Arthropods and Mammals, *by J. K. Waage* 230
Parasites, Pests and Predators (World Animal Science Series B2), *by I. V. Herbert* 231

## SEPTEMBER

**News**
Ivermectin vs. Onchocerciasis, *by M. A. Aziz* 233
News from WHO 246

**Review**
Control of Chicken Coccidiosis, *by P. L. Long and T. K. Jeffers* 236
*Strongyloides stercoralis:* Immunobiological Considerations on an Unusual Worm, *by R. M. Genta* 241

**Letters**
Epidemiology of Scabies, *by J. Christophersen* 247
Vectorial Capacity, *by M. H. Birley and J. D. Charlwood* 248
Chicken House Reservoirs of Sandflies, *by R. P. Lane* 248
Intrascrotal Development of Trypanosomes, *by J. R. Baker* 249
Kudos to the Editor, *by A. Salieri* 249

**Focus**
Current Approaches to Malaria Chemotherapy and Prophylaxis, *by W. H. Wernsdorfer* 250
Racoon Ascarids as a Cause of Larva Migrans, *by K. R. Kazacos* 253
Will the real *Trypanosoma b. gambiense* please stand up, *by W. C. Gibson* 255

**Book Reviews**
Cardiopatia Chagasica, *by W. Apt and A. Arribada* 257
Host Regulated Developmental Mechanisms in Vector Arthropods, *by B. R. Laurence* 258
Biology of the Acanthocephala, *by A. Jones* 259

## OCTOBER

**Editorial**
Pathology in Tropical Medicine, *by C. D. Mackenzie* 261

**Review**
Cell-Mediated Immunity in Experimental Cutaneous Leishmaniasis, *by F. Y. Liew* 264

**Parasite Pathology**
The Pathophysiology of Severe Falciparum Malaria, *by R. E. Phillips and D. A. Warrell* 271

**Focus**
Host Specificity of Avian Coccidia, *by R. B. Williams* 283
Periodic Reproduction of *Onchocerca volvulus, by H. Schulz-Key and M. Karam* 284

**Letters**
Trends in Louse-Borne Typhus, *by J. R. Busvine* 287
*Echinococcus multilocularis* not yet in Australia, *by R. C. A. Thompson and A. J. Lymbery* 287

**Hi Tech**
Cyclosporin A: Immune Suppressant and Anti-Parasitic Agent, *by A. W. Thomson, S. W. G. Smith and L. H. Chappell* 288

**Alternative Answers**
Vector Control by Electrodynamic Spraying, *by G. A. Matthews* 291

**Book Reviews**
Handbook of Insect Rearing Vols I and II, *by A. N. Clements* 292

## NOVEMBER

**News and Comment**
No Evidence for Arthropod Transmission of AIDS, *by P. Piot and C. J. Schofield* 294
Trichinosis outbreaks associated with Horsemeat 295

**Parasite Pathology**
Immunopathology of Granuloma Formation and Fibrosis in Schistosomiasis, *by S. M. Phillips and P. J. Lammie* 296

**Review**
History, Biology and Control of Sheep Scab, *by A. C. Kirkwood* 302

**Focus**
The Chromosomes of *Onchocerca volvulus*, *by W. S. Procunier and H. Hirai* 307
L-Glutamine Influx in Malaria-Infected Erythrocytes: a Target for Antimalarials?, *by B. C. Elford* 309
Chronic Infection as a Major Force in the Evolution of the Suppressor T-Cell System, *by N. A. Mitchison and D. B. G. Oliveira* 312
Hapantotypes: a Possible Solution to some Problems of Parasite Nomenclature, *by R. B. Williams* 314
Fact and Fiction in Mosquito Attraction and Repulsion, *by C. F. Curtis* 316

**Hi Tech**
Fluorescence Recovery after Photobleaching: Applications to Parasite Surface Membranes, *by M. Foley, J. R. Kusel and P. B. Garland* 318

**Alternative Answers**
Health of the Urban Poor in Developing Countries, *by T. Harpham* 320
WHO Programme in Environmental Health in Rural and Urban Development, *by R. E. Novick* 324

**Book Reviews**
Laboratory Diagnosis of Parasites, *by J. Schofield* 326

## DECEMBER

**Comment**

The Case for 'Plant Medicines', *by J. D. Phillipson* 327

**Debate**

The Mode of Action of Chloroquine and Related Malarial Schizontocides, *by C. D. Fitch with D. C. Warhurst* 329
330
331

**Review**

Epidemiology of Reindeer Parasites, *by Odd Halvorsen* 334
The Organization of Schistosomiasis Control Programmes, *by B. Liese* 339
The Physiology of Itch, *by J. O'D. Alexander* 345

**Focus**

The Potential of Antispermatogenic Drugs against Trypanosomatids, *by J. F. Turrens* 351
Traditional Antiparasitic Drugs in China, *by Xiao Pei-Gen and Fu Shan-Lin* 353
Novel Antimalarial Drugs from Plants?, *by J. D. Phillipson and M. J. O'Neill* 355
Phytoalexins: Antiparasitics of Higher Plants, *by M. J. O'Neill* 358
Traditional Healers in Swaziland, *by W. Hoff and G. Shapiro* 360

**Book Reviews**

Trypanosomiasis Control and African Rural Development, *by W. E. Ormerod* 362
Bench Aids for the Diagnosis of Human Malaria, *by C. J. Schofield* 362
